

Tenth: Attach the latches:

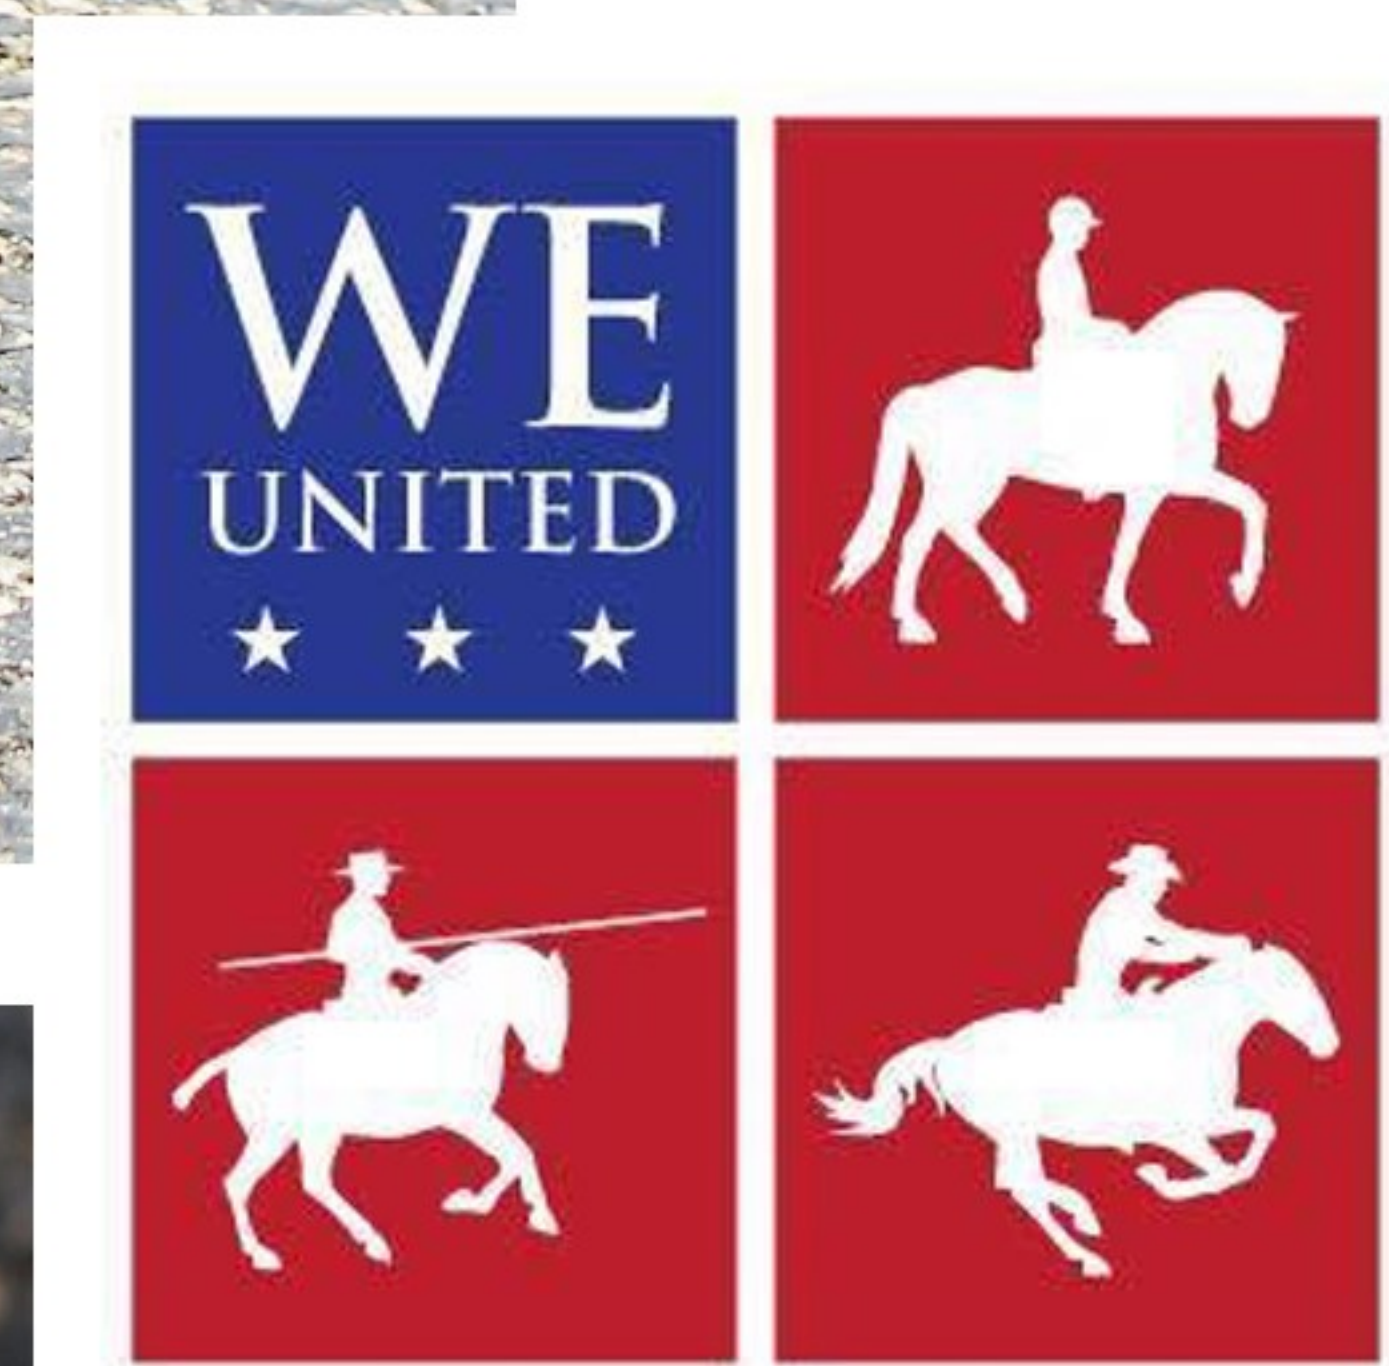

**Eleventh:
Shape and attach 2x4 pieces to help support
when attaching bridge together.**

Twelfth:

We paint the bottom with a black paint and primer mix. Paint the sides barn red paint primer mix. And we use this product on the top. Get the special roller in order to add more texture.

How to show off and use your bridge!

Connect the two center pieces first and pull them apart until the clamps are tight. Then walk on the bridge and put sand under any low spots. Pull apart again. Then attach the end pieces and repeat the process.

Hope you enjoy your bridge!
